Wi' Besom an' Stane

The big round up of local curlers occurred last week in the Town Hall, with Mayor Wight presiding in the absence of President Landy.

In the first round the election of officers took place, resulting in the re-election of President Landy. Mayor L. Wight is the new vice-president. The Executive Committee was re-elected, with one change—the addition of Dr. Oatway's name. It now comprises Messrs. Gen. Oppertshausen, Wm. Robertson, E. C. Schmidt, Chas. Schultz, and Dr. Oatway.

It was decided to have the curling shed wired and electric lights installed. A new heating tank will be put in, to heat the water for flooding the rinks. Tenders will be called for installing a new engine for pumping.

A consignment of new curling rocks is on the way from Scotland, and orders were taken for these from those members wishing same.

The club now comprises some 70 members, and practically all were present. Great enthusiasm was displayed, and there is every indication that, when the ice comes, the curling season will open with a bang.

1924 Pool Wheat \$1.66 a Bu.

The Alberta Wheat Pool has announced the final payment for the 1924 crop, mailed the checks for this payment to its members and cleared the decks for another year's business.

The final payment is 11c in basis No. 1 Northern, via Vancouver. This brings the total for the year to \$1.66 bu.—the best average price received by prairie farmers since the Government Wheat Board was operating, when the final payment amounted to \$2.48 bu. for the 1919 crop.

Taking a Chance.

The motorists using the roads around Stony seem to be getting careless as regards observing the Highway Traffic Regulations. A town resident driving home in his buggy, to Stony Sunday evening, Sept. 6, met five cars from Gilbert's in. Of this number two had one light each, two had no lights at all, and the fifth car had glare lights.

Sunday evening last the writer drove a car in to town from the same corner. The first car met was a Ford owned in Stony by a party living a block from the Meridian road. The car had but one light, was driven by a lady who refused to budge from the middle of the road, and gave the passing car a pretty close shave. The second car was a big one with glare lights which the driver neglected to dim on passing. The third car was a Ford roadster making 20 miles an hour coming down the hill by Joe Doer's house without any lights at all. —MOTORIST.

Birthday Party to Old-timer.

Mr Ludwig Ulmer, one of Stony Plain district's old-timers, was given a pleasant surprise, at his home, on Sunday, Sept. 6, on the occasion of the anniversary of his natal day. Mr Ludwig, that day, completed his 55th year. A large number of his relatives and friends made up the party, and the affair was a big success.

A huge birthday cake, with 55 candles, was the centre of attraction at the festive board. All present did ample justice to good things provided at the dainty repast. Mrs Philip Miller crowned the guest of honor with a shower of flowers.

The evening was pleasantly spent in games and music, on leaving all wished Mr Ulmer many happy returns of the day.

LOCAL NEWS.

Mr C (Cluck) Lhesser, the well-known ball player, is in Stony this week.

Mr B W Johnston, an old-timer of Stony but now of Edmonton, was visiting old friends here on Saturday.

Mr Carl Pfeiffer is leaving early next month on trip to Glasgow, Scotland.

Rev W J Whelan and Mr Chas Young were in attendance last week at the Presbytery meeting of the Union Church, in Edmonton. Mr Young is leaving this week for the East, to resume his studies at McGill College.

Mrs Zahn returned Tuesday from a week's visit in Leduc, with her sister, Mrs Blitt.

The Alpenlander Band is being re-organised; the bandmaster bought a new clarinet on Monday.

Waltham League ball players had been challenged to a ball game for Sunday afternoon last by some local players. When the time came the Leaguers were present, but the challengers did not show up.

At the local Court on Saturday the case of a man who had formerly been a resident of Stony and left without settling for his board bill, was heard. Defendant was ordered to settle for full for the amount demanded, and a nominal fine was imposed.

A meeting of local threshermen was held on Saturday last in the Royal Parlors, with Mr Gus Gitzel in the chair. The election of officers resulted in Mr Mike Zucht being made president, and Mr Jno. Kotscherofsky secretary. The meeting had been called to agree on the rate to be charged the coming threshing season, and a number of subjects were discussed, including the season's precipitation, the average yield for the Province; the new short haul to tidewater, and the rail rate from Panama to Liverpool. Eventually the orators came back to their objective and agreed on the following rates: Oats 5c, barley 7c, wheat 8c, after which the meeting adjourned.

Women's Institute

The Stony Plain W. I. met at the home of Mrs Jas Smith on Wednesday, 9th inst. In the absence of the president Mrs Walton Vice-Pres., took the chair.

After the business was discussed, the speaker, Rev W J Whelan, gave a very interesting address on Dr Drummond, the poet of the "habitant." This address was most enjoyable, as Mr Whelan was personally acquainted with Dr Drummond.

Following this, a dainty lunch was served by the hostesses for the afternoon. Mesdames McCulla and Wood. The meeting then dispersed.

The Coming General Election

The outstanding event of the week in which this article is written was the dissolution of Parliament and the calling of a general election to take place next month to choose a new House of Commons. This is a matter in which every citizen of Canada is vitally interested regardless of individual party views and affiliations or position occupied in the economic life of the dominion.

The fortunes of political parties are not the concern of this particular column; what we are concerned about are the fortunes of the Dominion of Canada, and, in particular, of Western Canada because of a profound conviction that it will only be through the settlement, the development, the prosperity of this vast western land that permanent growth and prosperity will come to the Dominion as a whole. Support given, or opposition voiced, in this column to any given policy in the past, or that may be given or voiced in the future, is not because such policy may originate with any particular political party, but because of its bearing on Canada's progress and prosperity.

In the coming election, as in all elections, many conscientious voters will find themselves in somewhat of a quandary just how to mark their ballot paper. They not only will be called upon to choose from among the candidates offering for election the man or woman to be their representative at Ottawa, but, while making that choice, they must also render a verdict on the larger national issue of the pebbles and group of men they desire to rule at Ottawa.

Because of this double responsibility many voters find themselves in difficulties. It is merely a case of selecting the local representative, the task would be comparatively simple, namely, voting for the candidate who in their judgment was the most upright, the ablest, best informed and most intelligent, and therefore likely to prove the most capable representative. But it is not infrequently happens that this particular candidate is standing in support of policies and leaders which the individual voter is not prepared to support, while a less capable man is the candidate supporting policies and leaders in which he has confidence. The problem is there, but in the final analysis it must be decided by the voter.

One thing the individual voter can do, and that is to use all his influence to secure the selection of a candidate in whom he has every confidence as a local representative by the party whose policies he supports and in whose leaders he has confidence. Such action on his part is one of the duties of citizenship which the individual voter owes to his country.

Another course of action on the part of the individual voter is to refrain from pledging his support to any one candidate until all the candidates are in the field, and the opposing policies of the contending parties are clearly outlined and understood. Nobody should pledge such a valuable thing as their vote "in the dark" and without full knowledge of all the facts which have a bearing in the election.

In the approaching election there is another and grave consideration which must influence the voter in the marking of his ballot. Since Confederation, with the exception of the last four years, the party in power at Ottawa, whether Liberal, Conservative or Unionist, has always commanded a substantial and working majority. It was able to govern, and if it was guilty of neglect and failure to grapple and deal with national problems, the responsibility rested squarely on its shoulders.

During the past four years the Government of the day did not possess such a majority. The House of Commons was divided into three distinct groups, each with policies of their own. The outstanding feature of Conservative policy was wholly unacceptable to the Progressive group and to the vast majority of the Government following; the principles and primary features of Progressive policy were equally unacceptable to the Conservatives and to a certain section of the Liberals. Inasmuch as the Government of the day had to depend upon the support of one group or the other, a deadlock usually resulted, and party considerations and manoeuvrings became paramount to the national welfare and progress.

As a result, Canada has drifted at a time when decisive action was urgently needed. Everybody recognizes the situation. The Opposition make it a charge against the Government; the Government admits the situation has existed but holds itself blameless in view of the conditions which confronted it. Great Britain suffered from exactly the same situation until an election became imperative. Then the people put an end to an impossible situation by returning one party with an overwhelming majority and a clear mandate to govern. In the last United States election the voters were faced with a similar problem, and they, too, decided in the interests of good government to give one group a clear and substantial working majority.

In the election next month the voters of Canada must face this issue and decide it. Regardless of the outcome of the voting, it is important that decisive action one way or the other be taken, and an end put to present indecision and drifting leading to worse than stagnation in the development and carrying into effect of policies and reforms calculated to promote the national welfare.

Children Cry for

Fletcher's CASTORIA

MOTHERS:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Latest Triumph Of British Optical Industry

Make Better Lenses Than Any Other Country in World

A cinematograph made which will take 4,800 pictures a second is one of the latest triumphs of British makers of optical instruments. It can be used to show, for example, the effect of the impact of projectiles on armored plate.

This is only one of the many remarkable results achieved since the war which have placed the British optical industry far ahead of foreign rivals. Before the war, lenses ground in Germany were believed to be the best; now, British lenses are being bought by the German Government for German state institutions.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of Nerviline in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying it healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success prove the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

Paper Made From African Grass—Paper made from capri, an African wild grass, has been produced by the bureau of standards on a commercial basis and samples have been made available to American industry as a government test. The bureau's reports show that the imported grass pulp, after cleaning gave a 60 per cent yield of papermaking fibre.

NEARING A BREAKDOWN

A Condition That Calls For A Reliable Tonic

Many women give so much of their time to the care of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often the heart palpitates violently at slight exertion, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows weak and they are always depressed. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which enrich and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. Alex. McInnes, Bowman River, Man., who says: "About a year ago I had a serious illness which left me very anemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

You can get these pills from any dealer or by mail at a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rifians Are Good Fighters

Are Holding Their Own Against France and Spain

The Rifian tribesmen in Morocco who are able to maintain their independence against the French and Spaniards for some time, in the opinion of Sir Charles Hobhouse, former British army officer, and ex-postmaster-general, who has returned to London from inspecting the condition of the Rifian refugees at Tangier, on behalf of the League of Nations.

"Despite grandiose stories, the Rifians are holding their own against France and Spain," he writes in the newspaperman. "It will undoubtedly be a case of Europe against Africa, if the war is carried on, and it looks as if Africa will hold her own, and a little more."

"The Rifians are great fighters. They have up-to-date equipment, and their leader, Abd-el-Krim, is a man of remarkable military capacity."

Ancient Indian Curio Sent to New York From Saskatchewan

Swathed in its original wrappings, some of the inner materials being hundreds of years old, one of the oldest relics on the American continent is now on its way to New York to its long rest in the museum of American Hove Foundation, an institution devoted exclusively to Indian relics.

D. A. Cadzow, curator of the museum, was in Regina recently after more than a month spent in the various reserves in Saskatchewan. He secured a mass of old knives, arrows, blankets, beads and other trinkets, but the prize he was after and secured was possibly the last of the peace pipes retained by the Cree.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms of whatever variety, but will serve to repair the injury they have done.

Chinese Law Very Strict

Offenders All Treated the Same in Their Courts

When Lord Palmerston, in 1838, tried to force a bill through the House of Commons to establish an extra territorial court in China in civil and criminal cases it was defeated through the opposition of Sir James Graham and other sound lawyers, who refused to be parties to the creation of a tribunal which would interfere with an "independent power" like China.

As a matter of fact, the objection made to Chinese law by countries whose nationals got into trouble there was that it was too strict and too well enforced.

For example, all murders looked alike to the Chinese courts, and so drunken sailors ashore who killed somebody for fun naturally wished to be tried by European judges who would consider the mitigating circumstances.

It is about time for people to wake up to the fact that Chinese legal ideas, like her arts, were very advanced when Europe was in a state of barbarism.—New York Telegram.

Mother Graves Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Insects Bring Safety

All steel railway cars are now being used on Indian railways. The change was not made for safety reasons but because insects ate up the wooden cars rapidly.

Tourist Traffic Extending North

Northern Rockies Will Be Mecca of World Says Louis W. Hill

"World" tourist traffic is trending north. This generation will see the Mecca of the wealth and society of Europe and America. The next generation will see the development of Alaska as the centre of the world tourist traffic. This is the opinion expressed here by Louis W. Hill, president of the Great Northern Railway, and son of the famous founder of the road, James J. Hill.

Mr. Hill, who is motoring through the Canadian Rockies with William Kenny, vice-president of his road, expresses the hope that the United States will copy the superior park laws and highways which he has found north of the border.

As the one to whom credit is given for discovering and opening up Glacier National Park, Montana, Mr. Hill believes that good auto roads are now the strongest medium for developing the tourist possibilities of a country. Such roads as the Banff-Windermere highway will in the next generation stretch clear into the wilds of Alaska, he predicted.

DON'T WAIT!

'Till you get sick. Use Minard's—the great preventative.

Ottawa, in Canada; Sydney, Melbourne and Perth, in Australia; and Pretoria in South Africa, all have the right to maintain their own gold coins.

Corns are painful growths. Holloway's Corn Remover will remove them.

It has been decided by the Berlin courts that when an opera is broadcast the singers are entitled to demand a ten per cent. increase of salary.

Minard's Liniment used by physicians. The bones and muscles of the human body are capable of more than 1,300 different motions.

Aspirin is the trade mark registered in Canada at Bayer Manufacturing Co. Moncton, N.B. Sole agents in Canada: Bayer Manufacturing Co., 100, King Street West, Toronto. To assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Canada Must Hold Fast To Link That Welds Together Component Parts Of Empire

Swearing of oaths of the old ties of the British Empire is natural and reasonable progress, for few in Canada think on that account that the empire is disintegrating, said Sir George Foster, in a public address at Victoria.

"Some people say it would not make any difference if the empire was a republic and headed by a president or a monarch headed by a king," Sir George added.

"But the British Empire, scattered as it is over the surface of the world and composed of races and tribes of all colors and beliefs, is held together by that common sovereignty of duty."

"It is a symbol of sovereignty that has made the British Empire what it is and without which it is not a link that welds into a whole all the scattered parts of the empire."

Market For Western Wheat

Norway Will Get Wheat In Canada Says Commissioner

Most of the wheat Norway requires this year will come from Canada, according to A. Johannessen, of the Norwegian food commission, Oslo, who visited Vancouver on his way through the west to study crop and marketing conditions here.

Many European millers and grain merchants suffered such heavy losses during the slump in wheat prices from February to May last year that they will be afraid of making large contracts for next year he said.

All the import trade of grain and flour to Norway is handled by the Norwegian Government, Mr. Johannessen explained. It is a provincial measure, adopted during the war, and which the government still finds advisable to keep in force owing to unfavorable international conditions in the country. From 1914 to 1917 private importation as well as the government handled import trade of grain. In 1917 the government took it over entirely.

Alfalfa Is Good Horse Feed

Experiments Show Prejudice Against It Is Unfounded

An experiment conducted by the Michigan Agricultural College seems to show that, to some extent at least, the prejudice against alfalfa as a horse feed is not founded on fact. Horses which were fed alfalfa regularly for a year maintained their weight and good condition, and did just as much work as less fed ones than their team-mates.

Nine teams of horses, varying from 2 1/2 to 14 years of age, were selected for the experiment. One horse of each team was fed corn and alfalfa and the other corn, oats and timothy.

The alfalfa-fed horses consumed an average of 32.2 pounds of corn and 17.91 of alfalfa per day, while the others ate 3 pounds of corn and 5.22 pounds of oats, with 21.6 pounds of timothy. It costs 31 cents a day for feed with the alfalfa-fed horses and 37 cents for the timothy-fed horses. The former gained an average of 21 pounds during the year, and their mates lost 17 pounds each.

British Boys For Alberta

Contingent of Boys for Training at Alberta Government Farm School

Arrangements are now being made for bringing over this year's contingent of British farm boys for training at the Alberta Government farm school.

Hon. George Meadley has asked that they be here by the middle of October as the school will open October 27. There is to be a maximum limit of 100 boys, and they will be sent direct from England to the three schools at Verulam, Oils and Claresholm.

Under the plan to follow this year, the British boys will pay their own way at the school, and the overseas settlement board will reimburse the Provincial Government at a monthly per capita basis.

It is anticipated the full quota will be reached without difficulty.

of a man until after he has made her mad

W. R. N. 1994

Cultivation Of Drug Plants

Small Plot of Land Might Be Used For This Purpose

Formerly, as Mr. John Adams, assistant dominion biologist, says in his bulletin on "Medicinal Plants and Their Cultivation in Canada," certain drug plants growing wild in this country were to be had for the mere trouble of gathering. Excess of use of this privilege has led to their scarcity and in their wild state to such practical disappearance as now to require their cultivation. Particularly is this true of *Sonchus oleraceus* and *Golden Seal*. Mr. Adams, in dealing with this subject, gives the commonsense advice that unless a farmer can convince himself that he can realize larger profits per acre from the growth of drug plants than from the usual farm products, he would be unwise to attempt it unless as a sort of subsidiary means of supplementing his income.

However, he can run no risk by devoting a small plot of about an acre to drug plant culture as an experiment for a few years. He might grow at least ten different sorts of those best suited to the locality. The plants for which there is demand are: *Golden Seal*, which is collected in autumn after the seeds have ripened; white mustard, the seeds of which, and *Black Mustard*, when ground and mixed, constitute the mustard of commerce; *Sonchus oleraceus*, or *Meibomia* *Flax*, is collected in autumn and can be grown on any soil suitable for field crops; *Marsh Mallow*, *Sacred Bark* or *Beaverberry*, *Anise*, *Cacaway*, *Coriander*, *Fennel*, *Wintergreen* or *Blackcherry*, *Groundhog*, *Peppermint* and others. Descriptions of all of which are given in the bulletin, which can be had by addressing the publication branch, Ottawa. Above everything farmers are warned against paying heed to fraudulent advertisements purporting to tell of big profits that can be made by growing medicinal plants.

What Advertising Does

Advertising—publishes news of available goods, investments and services—enlarges the market and creates new wants. More advertising, more production, more consumption and more accumulation of wealth. Advertising is the fertilizer of business, making a poor soil good and a good soil better.

Time For Best Work

Tests performed on 48 students at College University by Dr. Donald Laid, indicate that the average mind does its best work at 8 a.m. and the poorest work at 4 p.m. Wednesday is the best day of the week and Saturday the poorest.

Dominion Seed Population

Rapid Progress Debates On Strong Immigration Policy

Continued and rapid increases in the Dominion depend upon the continued and rapid increase of their population, says the London Morning Post. Such increase can only be accomplished by means of inter-continental migration. There are in this country as great many more persons than the necessities of the country can support. But before any large scheme of immigration can be carried into execution, it is necessary to ensure that new settlers in the Dominion shall be provided with a market for their produce. Great Britain is the best market in the world; and by means of a policy of preference the products of the Dominion may be given the advantage over foreign products. But, again, the possibility of emigration on a great scale depends upon the workers together of the Dominion with this country. How essential it is to their populations with English stock the Dominion have got yet thoroughly understood. It appeared in the course of the parliamentary debate that, by reason of delay overseas, some 50,000 persons, approved by the authorities, are waiting to emigrate.

Plenty Of Flowers In Canada

Many Cultivated In England That Grow Wild Here

Lady Byng, who is an enthusiastic flower lover, wishes to transplant some Canadian flowers to her English garden and so that's just what her English gardener to make a specialty of these wild plants. Recently at Jasper lodge, where a little while since invited to meet her, she spoke informally on the subject. She commented on the number of flowers which she said were in England were only to be found in Canada, and there were frequently cultivated at considerable cost, but which out here in Canada people liberally "took underfoot" they were so plentiful. She urged the necessity to cultivate such garden in Jasper. Her Excellency said it was astonishing how many people overseas thought that there were no flowers in Canada.

Revising The Ancient

Flowers that bloomed in ancient Egypt 20 centuries before Cleopatra, and wheat and barley, taken into the royal tombs to sustain Pharaohs on their post-mortem travels, have been brought to Chicago by Prof. James Henry Brewster, noted Egyptologist of the Chicago University.

Buying More Canadian Goods

Germany is buying more Canadian goods. In the twelve months ended July, Canadian exports to Germany were \$22,453,268, an increase of fourteen million dollars. Canadian purchases in Germany, on the other hand, were \$4,935,366, an increase of less than one million dollars.

Increased Taxation Must Necessarily Follow Demand For Better Public Service

New Profession For Women

Bird Hospital In New York Does Flourishing Business

Miss Pauline Steinacher, niece of the late Dr. J. J. Home, one of the founders of the French Hospital in New York, and for many years chief nurse there, has the unique profession of bird surgeon. Receiving her surgical training from her uncle, Miss Steinacher applied her skill to feathered pets and has restored hundreds of sick birds to health during the past twenty-three years. She was the only visiting physician on the staff of the late Miss Virginia Pope, well known bird doctor, who maintained a home for birds in New York for many years.

At Miss Steinacher's hospital and boarding home for feathered pets are birds suffering from various troubles. One bullfinch is slowly getting feathers again on its bald head, the baldness being due to an over-rich diet at the hands of a fond owner. A hand some green parrot that had been too weak to stand and had laid for days on a cushion, is now talking again with a return to his previous spirits. A droopier is recovering the use of a badly maimed leg that Miss Steinacher treated. A once blind canary now peeps after the surgeon had removed three growths from its eye.

Miss Steinacher claims that a real love for birds is a necessary basis for all successful treatment and care of them. She operates on little canaries to remove tumors, breaks broken legs and wings, prescribes special diets for insect diseases and intestinal disorders and treats birds in good habits, such as daily baths and neatness with their food.

Adjustable Water Wheel

Will Rise and Fall Any Height Up To 88 Feet

A water wheel has been invented which is designed to adjust itself automatically to the varying height of the propelling stream. An first constructed the wheel has eight V-shaped paddles about 13 feet long and 14 inches wide, and it is so mounted on an upright tank that it rises and falls with the river's changes through any height up to 88 feet. It is used for pumping irrigation water from a distance of 350 feet to a height of 70 feet above the source. Pumps and pumping are placed on the river bank, and the wheel and tank are connected by a shaft having universal couplings at each end.

Bolivia is using convict labor in an extensive programme of reforestation.

Canadian Finance, of Winnipeg,

points out that we are too apt to cry out against what taxation takes from us, without reckoning up in the other column what taxation does for us. It is not so much the taxation that should be criticized as the way in which the taxes are spent. If there are things which can be dispensed with as needless luxuries, then taxes should not be raised in order to purchase them. But civilized men, in general, that are organized, demand so many services, that the chief question is to supply these services at reasonable cost to the taxpayer who wants them.

Citizens, says Canadian Finance, cannot expect to be considered contented if they clamor for improvements in one branch and for lower taxes in the next, for no progress can be made in that way. What people get in the way of public improvement they must pay for, and they can't have everything they want and lower taxes too.

At the same time, while public spending in recent years has run away beyond all bounds, anybody who hopes to get back to the low taxes of 30 years ago, is indulging in an elaborate dream. To get back to the lower tax levels would mean to get back to the anterior school systems and the bad roads and poorer lighting of those days.

Taxpayers are paying for more than they were and in many cases more than they should; but it should not be forgotten that they are getting more, too, and that in many instances what they are getting is worth the price they pay.

This is no argument for extravagance. Extravagance with taxes is a wicked injustice upon those whose hard won earnings contribute to the public treasury, and is not only directly burdensome, but is made indirectly pernicious by the policy of a demagogic example.

Settlers From United States

Many American Farmers Taking Up Land In Western Canada

Returned from what he regards as a remarkably successful inspection of the various agencies in the mid-western, northwestern and southwestern states, J. Bruce Walker, superintendent of immigration in the United States, states that from April 1 to August 31, of this year the number of farmers sent up from their states to settle land in Western Canada shows an increase of 50 per cent. over the figures for the same period and from the same region last year.

He stated that, from March 1 to August 31 this year the Canadian National Railways, the Canadian Pacific Railways and the Hudson's Bay Company sold more land in Western Canada than in a similar period for the past ten years.

"All we have to do," said Mr. Walker, "is to get those Western American farmers to go and see Canada; Canada will do the rest. If Canada with her wonderful wheat fields cannot induce these people to stay no other agency can. They are going to Canada in steadily increasing numbers to see the country and steadily increasing numbers of those people are taking land and staying. Reports from agencies of the department wherever located in the United States all tell the same story."

Barrowed Fashion

Indian girls on the Glacier National Park reservation bob their hair just like the pale face girls. They are wearing a lot of a blue that blends with their copper colored complexion. And the wrinkled old squares make it for them from heels which they gather on the wooded slopes of the Rocky Mountains. Out in the west these Indian girls it for granted that the pale face girls get the idea of cheek painting from the American Indian custom, just as the Indian girls took the hair bobbing habit from their "pale sisters."

First Census Taken

Still two years ago in census of the population of Palestine had been taken since the time of Solomon. In 1923 there were 26,784 Jews in the country; today the total is estimated at 108,000.

AD. AND CIRCULATION MEN AT JASPER PARK

Advertising and circulation men-convention at Jasper Park Lodge and vicinity also had representation. At agents, representing all the important carriers by the Canadian National the close of the convention. At large newspapers of Western Canadian Railways photographer. Every citizen 27, the two meetings appeared together with representatives of all in the west, from Winnipeg to Victoria, their delight with the location of meeting agencies and publishers' rep-B.C. is represented in the group Jasper National Park and their representatives from the electric to telephone agencies from Edmonton, also representation of the same shows them Pacific coast, again held their annual, Toronto, Winnipeg and other the better management.

BARRE, SON OF KAZAN
by
James Oliver Curwood
ALIVE EPIC OF THE FAR NORTH
Copyright, 1917, by Doubleday, Page & Co.
"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog.
Is an Adaptation of This Story

SYNOPSIS

Barre, wandering in the woods, came upon Wakayoo, the black bear, and, fascinated, watched him knock fish out of the pool. He learned why Wakayoo cached his provisions, a discovery that solved the food problem for the young wolf dog. One day he suddenly found himself face to face with Pierrot, the trapper, and his daughter, Nepeese, the Willow, who a few days before had shot and slightly wounded Barre, thinking him a wolf. Nepeese now pursued Barre, who concealed himself beneath a great boulder.

CHAPTER VII.—Continued.

From where he lay Barre could see what happened. Secretly he crawled under the rock when Nepeese and Pierrot appeared through the break in the dip, and stopped. The fact that they stopped thrilled Barre. They were afraid of Wakayoo! The big bear was two-thirds of the way across the meadow. The sun fell on him, so that his coat shone like black satin. Pierrot stared at him for a moment. Pierrot did not kill for the love of killing. Necessity made him a conservationist. But he saw that in spite of the lateness of the season, Wakayoo's coat was splendid—and he raised his rifle.

Barre saw this action. He saw, a moment later, something spit from the end of the gun, and then he heard that deafening crash that had come with his own hurt, when the Willow's bullet had burned through his flesh. He turned his eyes swiftly to Wakayoo. The big bear had stumbled; he was on his knees; and then he struggled up and lumbered on.

The roar of the rifle came again, and a second time Wakayoo went down. Pierrot could not miss at that distance. Wakayoo made a splendid mark. It was slaughter; yet for Pierrot and Nepeese it was business—the business of life.

Barre was shivering. It was more from excitement than fear, for he had lost his own fear in the tragedy of these moments. A low whine rose in his throat as he looked at Wakayoo, who had risen again and faced his enemy.

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was sick and would suffer awful pains at times and could not do anything. The doctor said I could not have a baby until I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard' and I have taken four bottles of it. I feel so much better now I would not be without it. I also use Lydia E. Pinkham's Sassafras Wash, I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. Reid, 580 Notre Dame St., Lachine, Quebec.

W. N. U. 1594

Paper From Flax Straw

It is understood that paper from flax straw as a new Alberta industry is making some progress towards realization and the Provincial Government is continuing its investigation into the business possibilities of such an enterprise. Sufficient experimentation has already been done for the present, but further details in connection with getting a possible industry under way will be gathered for the government by the trade commissioner.

HARD PIMPLES ALL OVER FACE

For About Three Years.
Healed by Cuticura.

"I had trouble with pimples and blackheads for about three years. The pimples were scattered all over my face and were hard and red. They itched and burned a lot causing me to scratch and the scratching caused eruptions. My face looked so badly that I was ashamed to go out."

"I began using Cuticura Soap, Ointment and they helped me. I continued the treatment and in two months I was completely healed." (Signed) Miss Helen Budnik, R. 1, Box 11, Neenah, Wis., Sept. 27, 1924.

Refrain on Cuticura Soap, Ointment and Talcum to keep your skin clear.

Write: "Dear Mr. J. C. Cuticura," Price, 50c. Send 10c. for Cuticura Soap, Ointment and Talcum. Cuticura Shaving Stick 25c.

mother's pet? It was more than possible.

Barre had not moved an inch from under his rock. He lay like a thing stunned, his eyes fixed steadily on the scene of the tragedy out in the meadow.

Barre wanted to approach. It was like an invisible string tugging at his very heart. It was Kazan, and not Gray Wolf, calling to him back through the centuries, a "call" that was as old as the Egyptian pyramids and perhaps ten thousand years older. But against that desire Gray Wolf was pulling from out the black ages of the forests. The wolf held him quiet and motionless. Nepeese was looking about her. She was smiling. For a moment her face was turned toward him, and he saw the white shine of her teeth, and her beautiful eyes seemed glowing straight at him.

And then, suddenly, she dropped on her knees and peered under the rock. Their eyes met. For at least half a minute there was not a sound. Nepeese did not move, and her breath came so softly that Barre could not hear it.

Then she said, almost in a whisper: "Barre! Barre! Up! Barre!"

It was the first time Barre had heard his name, and there was something so soft and assuring in the sound of it that in spite of himself the dog in him responded to it in a whimper that just reached the Willow's ears. Slowly she stretched in an arm. It was bare and round and soft. He might have darted forward the length of his body and buried his fangs in it easily. But something held him back. He knew that it was not an enemy; he knew that the dark eyes shining at him so wonderfully were not filled with the desire to harm—and the voice that came to him softly was like a strange and thrilling music.

"Barre! Barre! Up! Barre!"

Over and over again the Willow called to him like that, while on her face she tried to draw herself a few inches farther under the rock. She could not reach him. There was still a foot between her hand and Barre, and she could not wedge herself in an inch more. And then she saw where on the other side of the rock there was a hollow, shut in by a stone. If she had removed the stone, and come in that way.

She drew herself out and stood once more in the sunshine. Her heart thrilled. Pierrot was busy over his bear—and she would not call him. She

TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on the stomachs of teething babies. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly effect the diarrhea, vomiting, and purging, and perhaps save the baby's life. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

made an effort to move the stone which closed in the hollow under the big boulder, but it was wedged in tightly. Then she began digging with a stick.

Five minutes—and Nepeese could move the stone. She tugged at it. Inch by inch she dragged it out until at last it lay at her feet and the opening was ready for her body. She looked up toward Pierrot. He was still busy, and she laughed softly as she untied a big red-and-white Bay handkerchief from about her shoulders. She dropped on her hands and knees and then lowered herself flat on the ground and began crawling into the hollow under the boulder.

Barre had moved. With the back of his head flattened against the rock he heard something which Nepeese had not heard; he had felt a slow and growing pressure, and from this pressure he had dragged himself slowly—and the pressure still followed. The mass of rock was settling! Nepeese did not see or hear or understand. She was calling to him more and more pleadingly:

"Barre—Barre—Barre—"

Her head and shoulders and both arms were under the rock now. The slow of her eyes was very close to Barre. He whined. The thrill of a great and impending danger stirred in his blood. And then—

(To be continued)

COLOR IT NEW WITH

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can take so soft, delicate shades for dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Woman's Profile On Cliffs Of Dover

Heavy Fall of Chalk Leaves Complete Clear Outline

The outlined profile of a woman's head has appeared on the face of a great white cliff between Dover and St. Margaret's Bay, near the sacred memorial to the Dover Patrol. It suddenly came into view after a heavy fall of chalk from the top of the cliff. Boatmen who passed the mark in their boats—the beach below cannot be reached on foot—saw one day that the chalk had fallen in such a way as to produce on the cliff the complete clear outline of a woman's face. The face, as it were, closed, the nose in straight and long, the lips are parted and the head is bowed as if in prayer or meditation. The face is turned towards Dover. It is easy to discern the shape of the skull and a sweep of hair over the forehead.

The face has caused no little comment among Dover boatmen. Some have christened it "The Lady." It is not considered a subject for jests or laughter. The profile is pointed out to one by the boatmen in tones closely resembling awe.

Scared the Passengers

A Hampstead tube train was leaving Belbus Park Station, London, when there was a loud bang. Several women screamed, the conductor looked uneasy, one housewife with a bundle of parcels jumped up and made for the door.

A child sobbed and looked reproachfully at her right hand, which held a piece of string and the fragments of a toy balloon.

"Well, what's troubling you?"

Patient: "Frequent pains in the back."

Doc: "Here are some pills; take one fifteen minutes before pains start."

Old-fashioned ideas may be the best at times, but you can't run an auto by feeding it cats.

Make your own mustard Pickles

Home-made mustard pickles. How delicious—and how easy to put up. Here's the recipe:

MUSTARD PICKLES

1 qt. small onions 1 large cauliflower 2 red peppers

Peel onions, cut vegetables in small pieces, cover with weak brine and let stand overnight. In the morning bring to a boil and drain off.

Take 2 cups brown sugar, 1 cup flour, 6 tablespoons Keen's D.S.P. Mustard, 1 tablespoonful turmeric and 2 quarts vinegar. Boil this mixture for twenty minutes, stirring constantly. Pour over vegetables hot. Let stand ten days, stirring every day, then bottle.

Keen's Mustard aids digestion

May Queen Opens Bridge
May Queen Katharine, in a pink ribbon at the recent official opening of the new bridge over the South Thompson River at Kamloops, B.C., which cost \$238,000. A bevy of pretty girls representing Canada and her provinces took a prominent part in the ceremony.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good as Baby's Own Tablets. The guarantee of government analyst that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams Medicine Co., Brockville, Ont.—A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Seek Grain Survey Board
With the certainty of increased grain trade for the port of Vancouver, following the equalization of freight rates, business interests will make a renewed effort to have a grain survey board established at Vancouver. Alberta interests are expected to cooperate.

Selly Ann CLEANSER

A WONDERFUL, natural water softener—leaves the hands soft and white. Refuses to scratch.

WESTERN CLEANSERS LIMITED, CALGARY, CANADA

Selly Ann CLEANSER

Manufactured by WESTERN CLEANSERS, Ltd., Sales Agents, W. R. Beatty & Co., Limited, Vancouver, B.C.

APPOINT BOARD FOR ADJUSTING LABOR DISPUTES

Ottawa.—The establishment of a board of adjustment on the Canadian National railways to deal with grievances or disputes not otherwise adjustable arising from the application of wages and working conditions schedules as affecting clerical, station, shop, shed, roundhouse and similar classes of employees was made public by representatives of the employees. The new board is similar in constitution to board of adjustment No. 1, which has been functioning for a number of years in connection with grievances of conductors, engineers, firemen, trainmen, maintenance of way employees and others.

Under the agreement just signed by representatives of the railways and the employees, the new board will be composed of eight members, four from the railways management and four from the employees. The chairman and vice-chairman will hold office six months and will be selected alternately from the management and the employees. To the board will be brought all matters of dispute arising from the application, non-application or interpretation of the schedules, and which have failed in settlement between the officers of the railway and the representatives of the employees. Decisions of the board will be final and binding upon both parties.

Dease Lake Promise Was Not Fulfilled

Disappointed Miners Start Trek Back From Caglar Field

Telegraph Creek, B.C.—The out-trail from the Caglar is being trodden today by a host of disappointed miners whose hopes of quick wealth in the placer fields of Dease Lake have been blasted by the cruel reality of life in the inhospitable northland.

A few small strikes have been made, but there is little to show for all the excitement that was stirred up last winter by the announcement of the discovery of free gold in the ancient mining camp which was abandoned in the late sixties with the dawn of the Klondike glory.

Has Denounced Bolsheviks

Premier of Australia Takes Stand Against Communists

Melbourne.—The disturbed conditions in Australia have caused Premier Bruce to take a definite stand against the Communists.

In a public address here the premier denounced the local exponent of Bolshevism, and asserted he would not hesitate to apply the people for endorsement of his action. It is necessary, he would seek a mandate for further action to insure peace and good government.

Warrants have been issued for four hundred Melbourne seamen for their part in the unofficial strike against the recently announced wage decrease.

Heads Grain Exchange

Officers Elected at Winnipeg for the Ensuing Year

Winnipeg.—D. C. MacLachlan, manager of the Western Elevator Company, was elected president of the Winnipeg Grain Exchange for the term of 1925-26, at the annual meeting of the exchange members. A. Thompson, manager of the International Elevator Company, and N. J. Breen, western manager of the Lake of the Woods Milling Company, were chosen vice-presidents. Dr. Robert Magill was returned as secretary by acclamation.

The executive council of committees were also elected.

Bessarabian Peasants On Trial Vienna.—The Abende says it learns that 600 Bessarabian peasants are now on trial at Kishinev, Rumania, by a military tribunal. They were arrested by a Roumanian punitive expedition following discovery of an alleged plot to deliver Bessarabia over to Soviet Russia.

Japan Fighting "Red" Propaganda

Country Fears Effect of Intercourse With Soviet Russia

Tokio.—Fear of Bolshevik propaganda in Japan is ever present among the heads of the government and it was recently reported that the home department is planning to introduce a bill at the next Diet session for the organization of a special police service to deal with the situation. It is said a yearly outlay of 1,000,000 yen will be asked for this purpose.

The government has not been amenable in adopting measures calculated to be effective in coping with untoward developments that may follow the reopening of the country for intercourse with Soviet Russia. Of these measures the most important is, of course, the new peace preservation law, which the Diet voted at its last session.

It has been found that channels for the introduction of "Red" propaganda are rapidly increasing owing to the growing frequency with which the peoples of the two countries are exchanging visits for commercial, touring and other purposes and also because of the freedom with which new publications are being imported.

The home office regards it as imperative in consequence that a police service of special nature be perfected to deal with the problem of propagation of radical thoughts.

Return Historic Shield

Escutcheon Taken From Quebec Is Presented to City After Long Sojourn in England

Quebec.—Coincident with the one hundred and sixty-sixth anniversary of the battle of the Plains of Abraham, this battle and the subsequent capitulation of Quebec to the British troops were revived to the world when the escutcheon presented to the historic city by a king of France, taken from the walls of Quebec by General Murray after the capitulation of the city, and afterwards handed to the town of Hastings and subsequently was officially returned to the city of Quebec as a goodwill offering from England to French-Canadians.

Hon. P. C. Larkin, Canadian high commissioner in London, handed over the shield to Quebec as the official representative of the town of Hastings, England, after the unveiling ceremony by Hon. N. Perceval, lieutenant-governor.

Canadians Coming Back

Over 50,000 Have Returned From U. S. In One Year

Ottawa.—Immigration to Canada for the first three months of the present fiscal year, that is, from April 1 to June 30, 1925, totalled 32,449, according to a report issued by the department of Immigration.

Of this total 16,091 came from Great Britain, Northern Ireland and the Irish Free State, 5,207 from the United States and 11,948 from other countries, almost entirely from Northern Europe.

In the same three months 9,141 Canadians who had been in the United States for six months or longer, and who went to that country to settle, returned to the Dominion.

Since the department of Immigration and colonization began to keep a record of these returning Canadians on April 1, 1924, a total of 52,916 have come back up to the end of last June.

Increased Unemployment in Britain London.—A dispatch to the Daily Express from Tangier says the Temsani tribe, one of the richest and most important in Morocco, surrendered unconditionally to the Spaniards when they landed at Alhucemas Bay.

Surrender to Spaniards London.—A dispatch to the Daily Express from Tangier says the Temsani tribe, one of the richest and most important in Morocco, surrendered unconditionally to the Spaniards when they landed at Alhucemas Bay.

ACTION ON B.C. GRAIN RATE CASE TO BE DEFERRED

Vancouver.—Decision on British Columbia's application for review of the scales of rates of "coming west" for domestic consumption will not be rendered prior to a general revision of freight rates, according to a letter received by the Vancouver board of trade from Hon. H. A. McKeown, chairman of the board of railway commissioners for Canada.

Mr. McKeown takes the position that the seasonal movement of export grain demanded early action, while the same element of urgency was not present in the case of domestic grain rates. The same applies to export rates, upon which the board has been asked for a judgment.

Victoria.—That the railway commission's recent order equalizing export grain rates will not be affected by the resolution of three members of the commission who did not take part in the judgment, was the opinion expressed by Premier Oliver after he had examined copies of the documents.

Cowboy-Earl Likes Ranching

Wyoming Man Who Inherited Title Will Remain in U. S.

Sheridan, Wyo.—Oliver Henry Wallop, aged 83, Wyoming rancher, who succeeded to the title of Earl of Portsmouth through the death of his elder brother, John Fellows Wallop, seventh Earl of Portsmouth, in London, will retain his United States citizenship and legal residence in this country, and plans to continue living on his 3,000-acre ranch near Sheridan after he assumes the title.

The new earl did not appear to regard his rise to the British peerage as extraordinary, and his answer to queries about his departure for England to assume the earldom was that he intended merely to visit his native land, be invested with the title, and then return to his cattle ranch.

During the fall of 1925, Wallop went to Canada on a hunting expedition. From there he wandered to Wyoming to visit a colony of Englishmen near Sheridan. He liked it, and bought a ranch.

Cabinet Ministers Sworn In

Hon. J. A. Robb Succeeds Fielding As Minister of Finance

Ottawa.—The cabinet re-organization was officially completed when Hon. J. A. Robb was sworn in as minister of finance and Hon. Herbert Marshall, as minister without portfolio. The two ministers were sworn in by St. J. Kamnie, clerk of the privy council, in the presence of His Excellency Lord Byng at Government House.

Should the present government be returned to power, there is likely to be further re-adjustment of the cabinet.

Two ministers, Hon. Charles Murphy and Hon. Dr. Heland, are, it is understood, retaining office only until the elections are over and there will then be some re-adjusting of portfolios.

Mr. Robb has been acting minister of finance for some time, owing to the illness of the veteran parliamentarian, Rt. Hon. W. S. Fielding, who now has been retired, after many years of service to his country.

Surrender to Spaniards

London.—A dispatch to the Daily Express from Tangier says the Temsani tribe, one of the richest and most important in Morocco, surrendered unconditionally to the Spaniards when they landed at Alhucemas Bay.

Plans For Super-Zeppelin

U. S. May Build One Twice As Large as the Shenandoah

Akron, O.—Plans for a gigantic super-zeppelin twice the size of the Los Angeles or the ill-fated Shenandoah, and safer than either, are being drawn up here by the experts of the Goodyear-Zeppelin corporation.

Dr. Karl Arstein and Capt. Ernst Lehmann, German zeppelin experts, who are now vice-presidents of the concern, are in charge of the plans. The proposed super-zeppelin has been christened in advance the GZ-1.

Who expects to look forward not only to building this super-ship, but to a day when they will build yet larger ships.

They believe that the larger ships would weather the most severe storm. In fact, they feel that smaller ships can also ride the severest storm.

The proposed GZ-1 would hold 5,000,000 cubic feet of helium. The Los Angeles holds 2,500,000 cubic feet, while the Shenandoah held 2,150,000.

Canada Not Thinking Of Annexation

Has No Idea of Joining U. S. Says Premier King

Toronto.—"Canadians are not thinking of annexation with the United States," the citizens of the United States are thinking of annexation to the British Empire," said Rt. Hon. Mackenzie King, premier of Canada, at the directors' luncheon on "International Day" of the Canadian National Exhibition.

Mr. King added, amid laughter, that the idea of annexation of Great Britain and the United States was one that he would prefer to see brought about before the joining of Canada to the United States was considered.

The prime minister said that so far as he was concerned he would oppose with all his might the idea of annexation of Canada and the United States.

British Subjects Only

Government of Western Australia Will Not Employ Foreigners

Perth, Western Australia.—The Government of Western Australia, having learned that foreigners have secured a large proportion of the work offered in connection with the clearing of land for the purpose of cultivation, has decided that in future any money advanced made to settlers by the Agricultural bank to finance such work shall be made on the condition that only British subjects shall be employed.

Earth Is Slowing Down

Washington.—The earth is slowing down, says a recent publication of the Smithsonian Institution. But there is little danger of a cessation of its rotary motion, for the rate of slowing down is only one thousandth of a second per century.

This means a loss of a minute in six million years. Scientists estimate that ages and ages ago the earth revolved so fast that a day was three or four hours.

Ku Klux Klan in Berlin

Berlin.—The Berlin police announced that they have uncovered a movement, headed by three United States citizens, and participated in by about 1,000 Germans, for the establishment of an order to be known as the "Knights of the Holy Cross," along the lines of the Ku Klux Klan.

Seize Canadian Schooner

New London, Conn.—The Canadian schooner Dawn, of Lunenburg, N.S., was seized in Narragansett Bay when it grounded while attempting to escape from a patrol boat.

UNITY IN CANADA IS STRESSED AT QUEBEC MEETING

Quebec.—Unity on the part of all the provinces in the Dominion was the keynote of the addresses delivered here at the reception yesterday by Hon. Mr. Perceval, lieutenant-governor of Quebec, to lieutenant-governors of Canada.

Among the speakers were: Sir James A. M. Atkins, lieutenant-governor of Manitoba; Col. the Hon. Harry Cockhutt, lieutenant-governor of Ontario; and Premier Taschereau of Quebec.

Hon. Harry Cockhutt said the drawing together of the different provinces was greatly to be desired in Canada. Sir James Atkins said the unfortunate thing was that Canadians did not understand each other.

"When I think of Canada, of its splendid future," he said, "and when I think of the province of Quebec, I call it the anchor of stability upon a troubled sea, as Canada could not be Canada if it were not for Quebec."

Premier Taschereau, after welcoming the lieutenant-governors and explaining the hopes and ambitions of the French Canadian, said: "Our motto is unity in diversity, and wherever in this Dominion you will find a better Canadian spirit and a more friendly and sympathetic feeling towards those who will reciprocate with us. British Columbia's perpetual summer, western wheat, Ontario's industrial possibilities, Quebec's natural resources and the Maritime's sea and forest wealth, if united, are the foundations of our great future."

Canada-U.S. Drug Pact

League of Nations to Study Recent Extradition Treaty

Geneva.—The League of Nations is to study the recent extradition treaty between Canada and the United States covering offenders against the laws concerning opium and other dangerous drugs, with a view to the conclusion of similar treaties among them. A recommendation to this effect was approved by the league council on recommendation of its permanent opium commission.

Anthracite Prices Advance

Predicted Cost Will Further Increase If Strike Continues

Washington.—Complaints that retailers are beginning to increase prices of anthracite coal are arising from a number of cities. Predictions are made that prices will be still further increased if the strike continues, and that consumers here and in Canada will bear the burden.

Meanwhile, there are no signs that the administration plans to intervene in the strike, and the walkout will apparently drift on indefinitely.

50 Million Feet of Lumber Destroyed

Hawkesbury, Ont.—More than 50 million feet of lumber, property of the Hawkesbury Lumber Company, Ltd., was destroyed by fire which broke out in a pile at the west end of the island on which the company's yards, mills and houses are located just opposite this town on the Ottawa River.

The loss is set by R. L. Blackburn, of Ottawa, managing director, at \$7,000,000, which is stated to be well covered by insurance.

Increased Output of German Wheat

Berlin.—The official statement of Germany's production of wheat this year is 108,567,000 bushels, against 92,200,000 last year, according to a cablegram received by the department of agriculture.

The area sown to wheat in Argentina, according to a revised estimate, is 18,829,000 acres, as compared with 17,792,000 last year, and the condition of the crop is excellent.

Advocate Bay Route?

Regina.—The idea of the Hudson Bay Railway is feasible and that an early completion of the construction is desirable is the opinion of C. C. Cooke, of this city, who has just returned from a trip to the bay by rail and water, with a party of western business men. Much material and considerable water power is available for harbor facilities at the end of the line, to states.

Part of a record shipment of tractors and threshers from the J. I. Case Threshing Machine Company, of Toronto, which left there recently over Canadian Pacific lines for the western wheat fields.

Ambling Along With the Trail Riders

(1) Chief Buffalo Child Long Lance. (2) Lunch on the mountain plateau. (3) A trail rider. (4) A group of riders on the mountain plateau. (5) Chief Long Lance with his Kootenay Indians.

The Official Ride of the Trail Riders of the Canadian Rockies, commenced this year on the morning of August 8th and ended at Wapiti Camp on the night of the tenth. Over a hundred members participated. The route across country between Marble Canyon, on the Banff-Windermere Highway, to the Bungalow Camp at Lake Wapiti.

The Riders, among them a number of prominent society people, scientists and artists, all travelling on horse-back, blazed a new passage across the Wolverine Plateau. Six countries were represented: Canada, the United States, Australia, France, the West Indies and England. The artists, of whom there were six, made sketches of the virgin scenery along the route of the newly discovered trail.

Seven Indians were in the party, six being Kootenays under Chief Louis Arbel, while the seventh was Chief Buffalo Child Long Lance who gave a lecture on the Indian Races of Canada to the Canadian Club of Montreal during the winter, and is rapidly becoming famous as an authority upon Indian affairs.

The artists included Leonard Richmond, R.B.A., and A. L. Leighton of England; Carl Rungius, Belmont Browne and Richard M. Kimbrell of New York; and E. Salascho of Chicago. Paris was represented by the Duc de Nemours, who recently purchased a ranch near Calgary.

This was the second annual Ride and Pow-wow of the organization. On the morning of August the eighth, motor cars conveyed the Riders from

Lake Louise and Banff to the point of departure on the Banff-Windermere Highway. There guides and horses were in readiness and the party immediately mounted and the Ride commenced. The trail led up Tumbling Creek, past Tumbling Glacier and on the Wolverine Plateau where lunch was served. The ride then proceeded along the Plateau with the Wolverine Falls, Mount Helms and the Washmaweyta Icefield and Waterfalls on the left, giving the riders a view of the Ten Peaks on the right.

This night camp was pitched on the Goodwin Plateau and before retiring the campers gathered around the fire for the usual sing-song in the shadow of the old which rises sheer six thousand, five hundred feet above its valley. On the second day the ride led down to Goodwin Creek and up McArthur Creek, past Lake McArthur. That night was spent on the shores of Lake O'Hara, the camp there being placed at the disposal of the Trail Riders by the Alpine Club of Canada. The day ended again with a sing-song.

On the third day, August 10th, the final ride was made from Lake O'Hara to Wapiti Lake, where the expedition was concluded with a Pow-wow, sing-song and polo-fare dance at Tipt Camp. It is expected that another ride of a similar nature will take place next year as the undertaking impressed those who took part as one of the most enjoyable outings they have experienced. Not only does the Ride provide an uncommonly pleasant holiday for sportsmen from Canada and the United States, but it also serves the excellent purpose of making the scenery and the fishing and hunting facilities of the Rockies known abroad.

ECLIPSE FASHIONS
Exclusive Patterns
by *L. J. Brown*

When it comes to undergarments you can be just as frivolous as you please. Just a few running-stitch or a bit of hand-embroidery and no dainty lace-and-ribbon, and you have the look of a girl who is doing her own making. The diagram pictures the simplicity of the step-in chemise above, which may be scalloped at the lower edge or left plain. The sides of both the front and back are cut straight, and the upper part of the bodice is the upper part, insuring a perfect fit. Sizes 36, 40 and 44 inches bust. Size 36 bust is suitable for 34 and 36, and 40 for 38 and 40, and size 44 for 42 and 44. Size 36 bust requires 1½ yds. of 36-inch or 40-inch material. Price 20 cents.

CARL FISCHER.

Stony Plain and District.

The local case, "Nick Klushin v. Mike Namiasoff and Steve Spotocholon, is up for trial this week before Mr. Justice McCarthy in the Supreme Court. The plaintiff claims \$655.48 as damages for an alleged breach of contract for the sale of certain lands.

Meredith Bros shipped four carloads of cattle from Carvel on Tuesday, bought from Hy Lutz, E. Hasse, Nick Jackoma, Romano Stycz, Pete Markovitch, M. Florakovich, Dan Schaefer, Bill Altamer.

There is no demand for half-fat cattle on the market at present, says The Market Examiner. They are best kept at home; but there is a good demand for the best beef. Storker cattle are bad to sell and good to buy at the present time.

The Schmigelky Ranch at Blueberry was the scene of a merry party Saturday night, on the occasion of a reception given by Mr. and Mrs. Schmigelky to their many friends and acquaintances. The home was tastefully decorated for the occasion with flowers and colored candles. The music was by the Kotscherofsky orchestra, and the arrangements for the comfort and pleasure of the guests left nothing to be desired.

In spite of the muddy roads the usual good crowd filled Holborn Hall Friday night, when another popular dance was held. Barth's orchestra discoursed sweet music, and all hands had an enjoyable time, including the several motor parties which were in attendance from Stony.

A supply of game licenses have been received at The Sun Office.

C. N. express money orders are now on sale at Clark's Drug Store.

Sunday Visitors

The visitors to Stony on Sunday included Bill Thayer, who had walked the railroad ties from Kamloops, B. C., looking for a job.

An auto from Newton, N. J., arrived here Sunday afternoon, with a load of land-seekers. They were very much impressed with what they had seen of the farms in this district. The driver said the drive in from the Baseline was the worst piece of road the last 2,000 miles.

Another visitor was I. G. W. Clark of 99th St. Edmonton, who motored to Stony, to get the names of farmers or others desiring help of any kind. Mr. Clark is working in the interest of the colored citizens.

Hon. Charles Stewart.

"I'm just arranging my campaign plans for West Edmonton," said Hon. Charles Stewart, Minister of the Interior, who spent the weekend in Edmonton.

Mr Stewart, full of optimism as to the result of the elections Oct. 29, had but little to say, and referred the interviewers to the press, to get the whole story of the political battle now raging.

Everything appeared promising for the success of the Liberal party in the West; Mr Stewart declared.

Hon. Charles Stewart,

Everything appeared promising for the success of the Liberal party in the West; Mr Stewart declared.

The Musical Eckards.

Those well-known entertainers, the Musical Eckards, Swiss bell ringers, appeared in Stony last night, and easily came up to expectations—and then some. The bell-ringing was a revelation to most of those in the audience, and the comedy went along without a hitch and pleased everybody. It is quite within the mark to say those few who had seen the troupe before were those who appreciated them the most. The dainty pair, the Strain Sisters, captivated everyone. The show is on in Edmonton the balance of the week, and sure will be welcome here on its next appearance.

Stony Plain and District.

Iuga Councilors meet in Stony Plain tomorrow (Friday) Sept. 18.

At Jasper Park on Tuesday, Sept. 1, to the wife of Mr. L. Leslie Barker, a daughter.

On Saturday Sept. 12, to the wife of Mr. Val Dressler, a daughter.

Mr. Chas. Schultz is said to be negotiating for the purchase of the splendid herd of Holsteins owned by Dr. Frith on the Fred Smith farm.

The date for the annual chicken supper given by the Ladies Aid of the Union Church, is set for Friday, Oct. 16.

The Conservative Convention to nominate a candidate in East Edmonton is set for tomorrow night, in Edmonton. The date for the West Edmonton Convention has not yet been set.

Hon. Arthur Meighen, leader of the Conservative party in the House of Commons, expects to be in Edmonton on or about Oct. 3.

And Some Escaped.

The duck season opened Tuesday, the opening ceremonies being attended by a number of local duck-chasers. These were well prepared, no doubt, as the stores had sold about half a ton of ammunition. That the hunters had great expectations is proven by this and also by the fact that Liveryman Sam had two trucks all ready to go out and help the shooters bring home the birds; but these were not called on, and there still are a lot of ducks flying around.

Mike Ducholke motored a party of duck hunters up to Shual Lake, leaving Monday evening.

One conscientious chap five miles from Stony was awakened Tuesday at daylight by a bunch of ducks near his house; he dressed, cranked his Lizzie, came to town, and woke up the local game guardian to get a hunting permit.

Shoot the Crow!

Some sportsmen have been killing crows during the summer, and have thus done their share in the good work, but there are others who have not. The crows are still here, and will remain until October. If every sportsman this fall, says the Camrose Canadian, would use one-half of his ammunition in killing crows, we could be fairly sure that the ducks would have a good chance to raise their young in safety next year.

Open Seasons for Game

Ducks, Geese—Sept. 15 to Dec. 14th.
Plover, Snipe, Rails, Quail—Sept. 15 to Dec. 14
Prairie Chicken, Partridge—Oct. 1 to 31
